Village of Elwood Organizational Chart

Department Overview and Breakdown

October 17, 2023

To the Citizens of the Village of Elwood:

We submit the Annual Comprehensive Financial Report of the Village of Elwood for the fiscal year ending April 30, 2023. The responsibility for the data's accuracy and the presentation's completeness and fairness, including disclosures, rests with the Village of Elwood Administrative Department. To the best of our knowledge, the enclosed data is accurate in all material respects and gives an accurate representation of the financial position and results of operations of the various funds of the Village. All disclosures necessary to enable the reader to understand funds and account groups of the Village are included. All disclosures required to enable the reader to gain the maximum understanding of the Village's financial activities have been included.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and is meant to be read in conjunction with it. The Village's MD&A can be found immediately following the report of the independent auditors.

The Village provides a full range of services. These services include:

- Administration
- Legal
- Community development
- Police protection
- Construction and maintenance of roads, streets, and infrastructure
- Water distribution
- Wastewater treatment

GOVERNMENTAL STRUCTURE, ECONOMIC CONDITION, AND OUTLOOK

The Village is located in the western portion of Will County, ranked as one of the top growth areas in the nation. It is located approximately thirty-five miles southwest of Chicago, within minutes of I-55 and I-80. The Village is home to the country's largest intermodal/industrial facility. The Village operates under the Village Board-Trustee form of government, consisting of a Village President and a six-member Board of Trustees. Board members are elected to a four-year staggering term, and the Village President is elected to a four-year term. The Village Board sets policies, adopts ordinances and resolutions, adopts the annual operating budget, and approves all expenditures. The Village Administrator is appointed by the Village Board and is responsible for carrying out the policies and ordinances of the Village and oversees the daily operations with the cooperation of the Village's department heads. The Village adopted its general operating budget for the fiscal year 2023 to include revenues and expenditures that would result in a breakeven ending balance. The Village continues to use a conservative and responsible approach in our budgeting process, which has resulted in financial stability.

LONG-TERM FINANCIAL PLANNING

The Village has a 5-year capital improvement plan. The Village reviews its capital improvement needs each budget cycle and adjusts the plan accordingly.

MAJOR INITIATIVES

In the previous fiscal year, the Village noted the addition of a Planned Unit Development for a container/dray storage yard; however, during the current fiscal year, that site was re-developed into three separate intermodal facilities. Harding Development broke ground on their project and hopes to be operational by Spring 2024. The Village negotiated a commercial property sale, which will become a second full-service location for the Manhattan Elwood Library District. The Village retired the debt on our 2015 Bond issue and successfully refunded the 2006 Bonds, now the 2023 Bonds. During the 2023 fiscal year, we had expenditures from our ILARPA grant funds to finish the final capital upgrades to the village hall with the installation of a new HVAC system.

FINANCIAL INFORMATION

Management of the Village is responsible for establishing and maintaining an internal control structure. This structure is designed to ensure that the assets of the Village are protected from loss, theft, or misuse. It is also designed to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles.

The Village's accounting records for governmental funds are maintained on a modified accrual basis, which means revenues are recorded when they become measurable and available and expenditures are recorded when the fund liability is incurred. Accounting records for the Village's enterprise funds are maintained on a full accrual basis.

The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

BUDGETING CONTROLS

Also, the Village maintains budgetary controls. The objective of the budgetary controls is to ensure compliance with legal provisions embodied in the annual budget approved by the Village Board. Activities of the General Fund, Special Revenue Funds, Debt Service Funds, Capital Projects Funds, Enterprise Funds, and Tax Increment Financing Funds are included in the annual operating budget. Project length financial plans are prepared for the Capital Projects Funds and are published in a separate document. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the budgeted amount) is established at the individual fund level.

As demonstrated by the statements and schedules included in the financial section of this report, the Village continues to meet its responsibility for sound financial management.

ILLINOIS MUNICIPAL RETIREMENT FUND

The Illinois Municipal Retirement Fund (IMRF) level of funding by the Village has always been 100% of the required employer rate that is adjusted yearly by IMRF. The rate for the calendar year 2023 is 5.22% of payroll for qualifying employees.

INDEPENDENT AUDIT

State statute requires an annual audit by independent certified public accountants. The Village selected the accounting firm of Lauterbach & Amen, LLP. The auditor's report on the general-purpose financial statements and combining individual fund statements and schedules are included in the financial section of this report.

AWARDS

The Government Finance Officers Association (GFOA) awards a Certificate of Achievement for Excellence in Financial Reporting to governmental entities for their Annual Comprehensive Financial Report for each fiscal year. To be awarded a Certificate of Achievement, the Village must publish an easily readable and efficiently organized Annual Comprehensive Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements and could not be accomplished without the efficient and dedicated services of the Finance Department. The Village has received this award for the past eighteen years.

A Certificate of Achievement is valid for one year only. We believe our current Annual Comprehensive Financial Report meets the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for a certificate.

ACKNOWLEDGMENTS

The preparation of the Annual Comprehensive Financial Report on a timely basis was made possible by the dedicated service of the entire administrative staff. Each member has our sincere appreciation for the contributions made in preparation for this report.

Also, the Village wishes to recognize the staff of the firm of Lauterbach & Amen, LLP, whose professionalism and cooperation are sincerely appreciated. In closing, we would like to thank the members of the Board of Trustees for their interest and support in planning and conducting the financial operations of the Village in a responsible and progressive manner. Without their leadership and ongoing support, the preparation of this report would not have been possible.

Sincerely,

Julie Friebele
Village Administrator

INDEPENDENT AUDITORS' REPORT

This section includes the opinion of the Village's independent auditing firm.

October 17, 2023

The Honorable Village President
Board of Trustees
Village of Elwood, Illinois

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Elwood, Illinois, as of and for the year ended April 30, 2023, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village, as of April 30, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Village, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Village's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Village's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison schedules, and required pension schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Village of Elwood, Illinois
October 17, 2023

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Elwood, Illinois' basic financial statements. The other supplementary information and supplemental schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, other supplementary information and supplemental schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 17, 2023, on our consideration of the Village's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Village's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Village's internal control over financial reporting and compliance.

Lauterbach & Amen, LLP

LAUTERBACH & AMEN, LLP

MANAGEMENT'S DISCUSSION AND ANALYSIS

VILLAGE OF ELWOOD, ILLINOIS

Management's Discussion and Analysis

April 30, 2023

Our discussion and analysis of the Village of Elwood's financial performance provides an overview of the Village's financial activities for the fiscal year ended April 30, 2023. Please read it in conjunction with the transmittal letter that is located in the introductory section and the Village's financial statements.

FINANCIAL HIGHLIGHTS

- **Excluding all TIF related activity**, the Village reported an **increase in net position of \$2,976,050** for the governmental activities.
 - Total liabilities/deferred inflows decreased \$598,205 due primarily to a decrease in long-term debt of the Village.
 - Total assets/deferred outflows increased \$2,377,845, resulting in the overall \$2,976,050 increase to net position for the governmental activities.
- Net position for the business-type activities decreased \$143,100.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the Village of Elwood as a whole and present a longer-term view of the Village's finances. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the Village of Elwood's operation in more detail than the government-wide statements by providing information about the Village's most significant funds. The remaining statements provide financial information about activities for which the Village acts solely as a trustee or agent for the benefit of those outside of the government.

Government-Wide Financial Statements

The government-wide financial statements provide readers with a broad overview of the Village of Elwood's finances, in a manner similar to a private-sector business.

The Statement of Net Position reports information on all of the Village's assets/deferred outflows and liabilities/deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Village is improving or deteriorating. Consideration of other non-financial factors, such as changes in the Village's property tax base and the condition of the Village's roads, is needed to assess the overall health of the Village of Elwood.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

VILLAGE OF ELWOOD, ILLINOIS

Management's Discussion and Analysis

April 30, 2023

USING THIS ANNUAL REPORT - Continued

Government-Wide Financial Statements - Continued

Both of the government-wide financial statements distinguish functions of the Village that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Village include general government, public safety, public works, and parks and recreation. The business-type activities of the Village include water, sewer, and garbage operations.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village of Elwood, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Village can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the Village's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The Village of Elwood maintains five individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Debt Service Fund, Deer Run TIF Fund, and the Capital Construction Bond Fund, all of which are considered major funds. Motor Fuel Tax Fund is the Village's only nonmajor fund.

The Village of Elwood adopts an annual appropriated budget for all of the governmental funds. A budgetary comparison schedule for these funds has been provided to demonstrate compliance with this budget.

Proprietary Funds

The Village maintains one type of proprietary fund, an enterprise fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Village utilizes enterprise funds to account for its water and sewer operations.

Proprietary fund financial statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water and Sewer Fund. The Water and Sewer Fund is considered to be a major proprietary fund of the Village.

VILLAGE OF ELWOOD, ILLINOIS

Management's Discussion and Analysis

April 30, 2023

USING THIS ANNUAL REPORT - Continued

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Village's I.M.R.F. employee pension obligation and other postemployment benefit obligation, as well as the budgetary comparison schedule for the General Fund. The combining statements referred to earlier in connection with non-major governmental funds are presented immediately following the required supplementary information on the pension.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Government-Wide Activities Excluding TIF Activity

The repayment of the TIF related long-term liabilities are secured solely by the incremental taxes received within the Tax Increment Financing District of the Village. As such, it is important to remove the TIF related activity from the Village's entity-wide statements to reflect true Village operations. The following table provides the breakdown of net position for the Village excluding all TIF related activities:

Net Position - Excluding TIF Related Activity						
	Governmental Activities		Business-Type Activities		Totals	
	2023	2022	2023	2022	2023	2022
Current and Other Assets	\$ 22,378,281	19,786,948	(3,859,952)	(3,864,796)	18,518,329	15,922,152
Capital Assets	27,384,620	28,678,957	15,305,915	15,729,062	42,690,535	44,408,019
Total Assets	49,762,901	48,465,905	11,445,963	11,864,266	61,208,864	60,330,171
Deferred Outflows	1,171,969	91,120	271,176	239,962	1,443,145	331,082
Total Assets/Deferred Outflows	50,934,870	48,557,025	11,717,139	12,104,228	62,652,009	60,661,253

Other Liabilities	534,072	399,904	3,473,747	3,687,915	4,007,819	4,087,819
Total Liabilities	16,532,998	16,507,087	3,979,513	4,163,395	20,512,511	20,670,482
Deferred Inflows	1,043,320	1,667,436	14,285	74,392	1,057,605	1,741,828
Total Liabilities/Deferred Inflows	17,576,318	18,174,523	3,993,798	4,237,787	21,570,116	22,412,310
Net Position						
Net Investment in Capital Assets	11,491,820	12,576,960	13,436,719	13,642,179	24,928,539	26,219,139
Restricted	2,022,602	1,923,926	—	—	2,022,602	1,923,926
Unrestricted	19,844,130	15,881,616	(5,713,378)	(5,775,738)	14,130,752	10,105,878
Total Net Position	33,358,552	30,382,502	7,723,341	7,866,441	41,081,893	38,248,943

VILLAGE OF ELWOOD, ILLINOIS

Management's Discussion and Analysis

April 30, 2023

GOVERNMENT-WIDE FINANCIAL ANALYSIS - Continued

Government-Wide Activities Excluding TIF Activity - Continued

By far the largest portion of the Village of Elwood's net position reflects its investment in capital assets of \$24.9 million (for example, land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The Village of Elwood uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Village of Elwood's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The Village's net investment in capital assets decreased \$1,290,600 primarily as a result of various capital improvements/additions being more than the depreciation expense for the year.

An additional portion or \$2.0 million of the Village of Elwood's net position represents resources that are subject to external restrictions on how they may be used, including restrictions for the use of motor fuel tax allotments and special service area taxes.

In removing all TIF related activity from the entity-wide statements, including capital assets, long-term debt, TIF incremental property taxes, etc. the Village is able to analyze true operational net position and changes in net position. **Excluding the TIF activity, the Village reported an increase to governmental activities net position of \$2,976,050 primarily as the result of grants received and increases in charges for services and property tax revenues.** Furthermore, **the Village was able to report positive balances for all categories of net position for the governmental activities for the years ended April 30, 2023 and April 30, 2022.**

VILLAGE OF ELWOOD, ILLINOIS

Management's Discussion and Analysis

VILLAGE OF ELWOOD, ILLINOIS

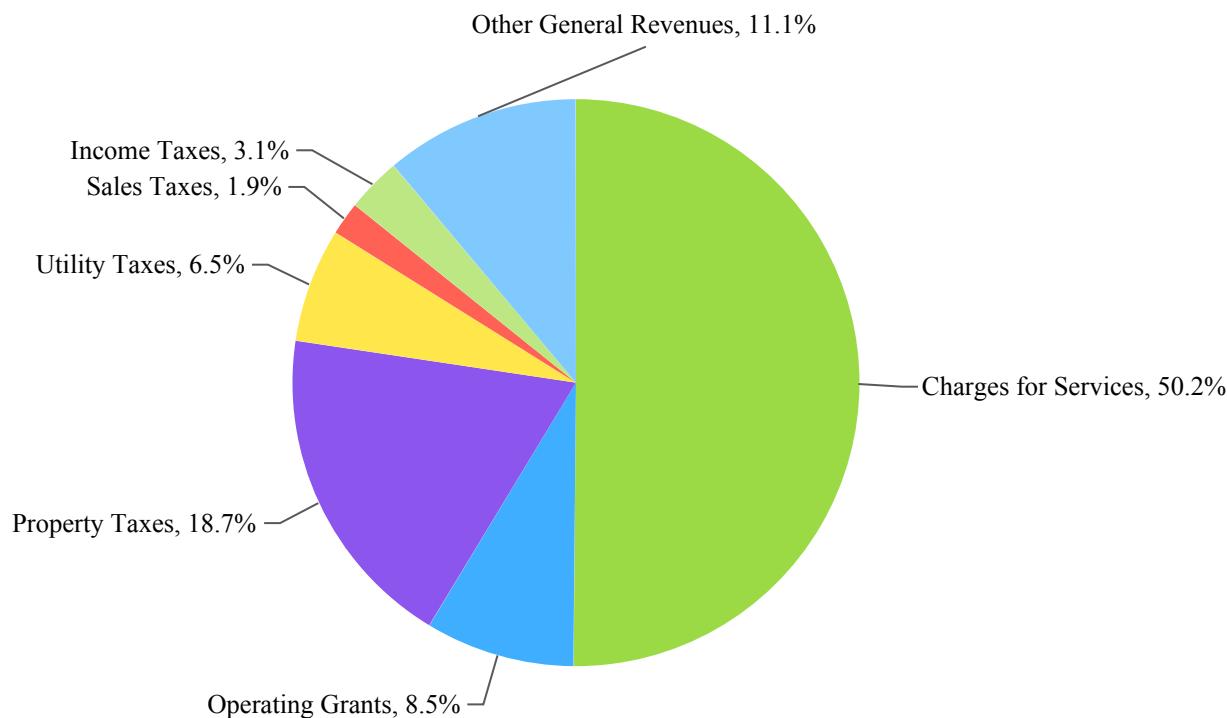

Management's Discussion and Analysis April 30, 2023

GOVERNMENT-WIDE FINANCIAL ANALYSIS - Continued

Government-Wide Activities Excluding TIF Activity - Continued

Revenues for governmental and business-type activities were \$10.7 million for the year, with the largest portion of revenue coming from charges for services (\$6.1 million). Revenues for the year increased \$2,022,591, which includes an increase of \$1,969,546 for governmental activities and an increase of \$53,045 for the business-type activities. In 2023 the business-type activities reported a decrease in the net position of \$143,100 due to increased operating costs of \$148,075. Total business-type activities expenses for the year were \$1.6 million, reflecting a 10.2 percent increase from the prior year, increases in expenses are due to budgeted repair and maintenance projects at the sewer treatment plant. The Village reported a \$2,832,950 increase to total net position for the year. This is in comparison to an increase of \$7,275,819 in the prior year. The following chart shows the diversification of the Village's revenue sources for the year ended April 30, 2023:

Revenues by Source - Governmental Activities at April 30, 2023

GOVERNMENT-WIDE FINANCIAL ANALYSIS - Continued

Government-Wide Activities Including TIF Activity

Net position may serve over time as a useful indicator of a government's financial position. The following tables show that in the case of the Village of Elwood, liabilities/deferred inflows exceeded assets/deferred outflows by \$78.3 million due in large part to the current year accretion expense of \$3,328,818 on the capital appreciation bonds and total outstanding accretion of \$599,441. The following table represents the activity of the Village including all TIF related activity:

VILLAGE OF ELWOOD, ILLINOIS

Management's Discussion and Analysis

April 30, 2023

GOVERNMENT-WIDE FINANCIAL ANALYSIS - Continued

Government-Wide Activities Including TIF Activity - Continued

By far the largest portion of the Village of Elwood's net position reflects its investment in capital assets of \$83.0 million (for example, land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The Village of Elwood uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Village of Elwood's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The Village's net investment in capital assets increased \$13,039,309 as a result of debt retirements of \$26,491,959 on long-term debt, offset by \$975,820 in additions to capital assets and depreciation expense of \$4,929,909. Unrestricted net position decreased \$4,299,513 due primarily to accretion expense, particularly on the TIF related debt.

An additional portion or \$2.0 million of the Village of Elwood's net position represents resources that are subject to external restrictions on how they may be used, including restrictions for the use of motor fuel tax allotments.

Net position of the Village of Elwood's governmental activities increased by \$8,981,572 (negative \$86.1 million compared to negative \$95.0 million). This deficit arose primarily due to the current year accretion on the Capital Appreciation Bonds outstanding amounting to \$3,328,818 and depreciation expense of \$4,344,059, which was offset by long-term debt retirements of \$26,491,959.

Net position of business-type activities decreased by \$143,100 (\$7.7 million compared to \$7.9 million) due to an increase of \$123,466 in commodities expenses from the prior year. The Village of Elwood generally can only use this net position to finance the continuing operations of the utility operations.

Management's Discussion and Analysis

April 30, 2023

GOVERNMENT-WIDE FINANCIAL ANALYSIS - Continued

Government-Wide Activities Including TIF Activity - Continued

Governmental Activities

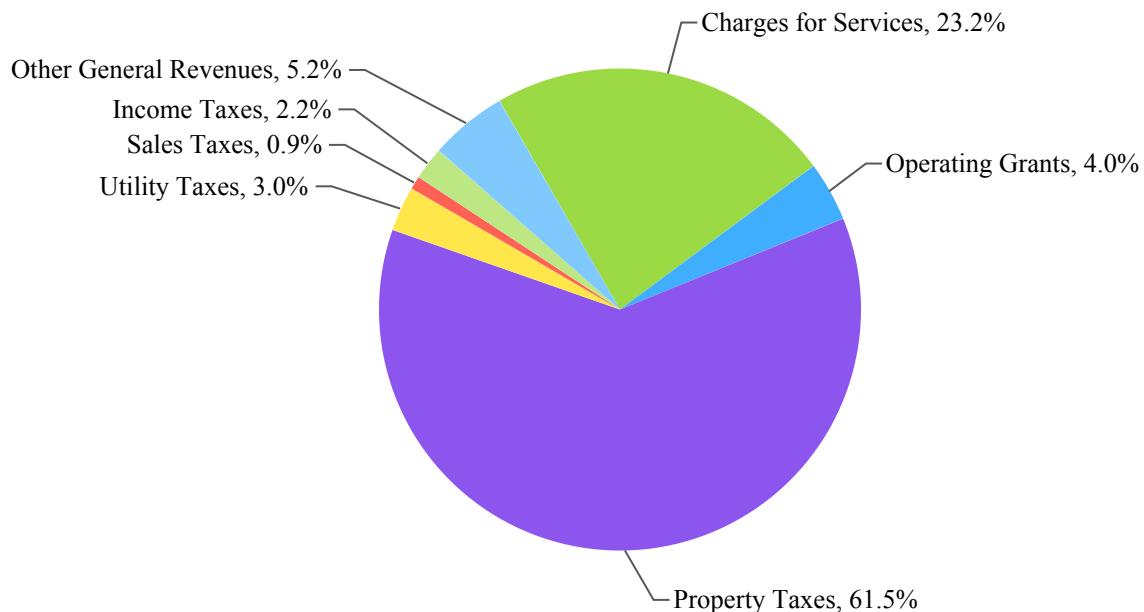

Revenues for governmental activities were \$19.9 million for the year, with the largest portion of revenue coming from property taxes (\$12.3 million), 85.9% of which is collected for the retirement of the TIF bonds. Total expenses for the year were \$10.9 million with the largest portion coming from the interest expense on long-term (TIF) debt (\$2.4 million).

Revenues for governmental activities increased \$2,374,295, or 13.5%. Major highlights of the changes in revenues include:

- Property taxes increased \$502,253.
- Charges for services increased \$926,606.
- Interest on long-term debt decreased \$3,155,592, due to a \$24,333,956 decrease in governmental debt principal in the current year.

Expenses for governmental activities decreased from the prior year. Total expenses in FY2022 were \$13.6 million, while expenses for FY2023 were \$10.9 million, reflecting a \$2,642,307 decrease.

Revenues by Source - Governmental Activities at April 30, 2022

The 'Revenues by Source' Tables graphically depict the major revenue sources of the Village of Elwood for 2023 and 2022. It depicts very clearly the reliance of property taxes "85.9% from the TIF district" to fund governmental activities. It also clearly identifies the minor percentage the Village receives from sales taxes (1%). Under the Board's leadership and the cooperation of the industrial park, there continues to be an effort to develop and expand the TIF District and develop capital infrastructure improvements to assist in that effort.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the Village of Elwood uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the Village's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unrestricted fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the governmental funds reported combined ending fund balances of a deficit of \$155,879,629, which is \$15,073,478 less than the prior year governmental fund balances deficit of \$140,806,151. **Excluding the Deer Run TIF Fund, the governmental funds would have reported a \$3,273,357 increase to fund balances.** A deficit of \$18,346,835 in the Deer Run TIF Fund due to TIF debt retirements exceeding the incremental property taxes collected during the year contributed to the total decrease in fund balance.

The General fund increased the ending fund balance by \$871,290. The Village's investment portfolio performed better than anticipated, generating additional interest income. Our building permit fee line item saw increases for the 3rd year in a row with the addition of two industrial and one commercial building sites. The Jackson Generation plant became operational mid-calendar year, resulting in a prorated global contribution for 2022 and the full contribution for 2023.

VILLAGE OF ELWOOD, ILLINOIS

Management's Discussion and Analysis

April 30, 2023

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS - Continued

Governmental Funds - Continued

The Capital Construction Bond Fund increased the ending fund balance by \$2,307,212. This increase was due to a reduction in capital project expenditures as well as the suspension of outgoing transfers to other funds.

Proprietary Funds

The Village of Elwood's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

The Village reports the Water and Sewer Fund as a significant proprietary fund. This fund accounts for all of the operations of the municipal water and sewer system. Water and Sewer fees are charged to all municipal customers at a combined flat rate of \$54.00 for the first 2,000 gallons and \$9.29 per 1,000 gallons after that. The spread between purchase and sale rates are intended to finance the operations of the waterworks and sewerage system, including labor costs, supplies, and infrastructure maintenance.

The Village intends to run the fund at a breakeven rate. For the FY2023 the Water and Sewer Fund reported a deficit of \$143,100, which includes \$585,850 in non-cash depreciation and amortization expense and \$103,926 in interest expense on outstanding Water and Sewer Fund debt.

GENERAL FUND BUDGETARY HIGHLIGHTS

There were no amendments made to the General Fund budget during the year. The General Fund expenditures were \$239,243 lower than the budgeted amount of \$4,841,417, due to the public safety and public works functions coming in under budget.

The General Fund revenues were \$1,382,662 higher the budgeted amount of \$4,669,297, due primarily to revenues for taxes coming in over budget.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The Village of Elwood's investment in capital assets for its governmental and business-type activities as of April 30, 2023 was \$114.6 million (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, land improvements, vehicles, machinery and equipment, park facilities, roads, sidewalks, and bridges. The total decrease in the Village's investment in capital assets for the current fiscal year was \$3,966,089, which was the result of \$975,820 in additions to capital assets offset by \$4,929,909 reported for depreciation expense.

The Village of Elwood went through the rating process with Standard & Poor's in July 2019 and received an A+. As a home-rule unit, no legal limit exists on the amount of debt that can be outstanding.

Additional information on the Village's long-term debt can be found in Note 3 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The Village's elected and appointed officials considered many factors when setting the fiscal year 2024 budget; a few are conservative spending practices and monitoring the economy for effects on tax rates, state-shared revenue streams, and fees that will be charged for our governmental and business-type activities. Using this approach has allowed the Village to keep a low property tax rate while maintaining good fund balances and providing a high level of service to our residents during periods of instability. We can achieve these goals with input from each department and present a balanced budget to our citizens.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Village of Elwood's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be directed to the Finance Office, Village of Elwood, 401 E. Mississippi Avenue, Elwood, Illinois, 60421.

VILLAGE OF ELWOOD, ILLINOIS

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of the Governmental Funds to the Statement of Activities - Governmental Activities For the Fiscal Year Ended April 30, 2023

Net Change in Fund Balances - Total Governmental Funds \$ (15,073,478)

Amounts reported for governmental activities in the Statement of Activities
are different because:

Governmental funds report capital outlays as expenditures. however, in the
Statement of Activities the cost of those assets is allocated over their estimated
useful lives and reported as depreciation expense.

Capital Outlays	813,117
Depreciation Expense	(4,344,059)
Disposals - Cost	(28,000)
Disposals - Accumulated Depreciation	16,000

The net effect of deferred outflows (inflows) of resources related
to the pensions not reported in the funds.

Change in Deferred Items - IMRF	847,571
---------------------------------	---------

The issuance of long-term debt provides current financial resources to
governmental funds, While the repayment of the principal on long-term
debt consumes the current financial resources of the governmental funds.

Change in Compensated Absences Payable	11,541
Change in Net Pension Liability - IMRF	(800,860)
Retirement of Debt	41,658,956
Change in Accretion - General Obligation Capital Appreciation Bonds	1,044,003
Issuance of Debt	(17,325,000)
Discount on Issuance of Debt	1,432,200
Loss in Issuance of Debt	725,760

Changes to accrued interest on long-term debt in the Statement of Activities
does not require the use of current financial resources and, therefore, are not
reported as expenditures in the governmental funds.

VILLAGE OF ELWOOD, ILLINOIS

Notes to the Financial Statements

April 30, 2023

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Village of Elwood (Village), Illinois, is a municipal corporation governed by an elected president and six-member Board of Trustees. The Village's major operations include highway and street maintenance and reconstruction, forestry, building code enforcement, public improvements, economic development, planning and zoning, water, sewer and garbage services and general administrative services.

The government-wide financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant of the Village's accounting policies established in GAAP and used by the Village are described below.

REPORTING ENTITY

The Village's financial reporting entity comprises the following:

Primary Government:	Village of Elwood
---------------------	-------------------

In determining the financial reporting entity, the Village complies with the provisions of GASB Statement No. 61, "The Financial Reporting Omnibus - an Amendment of GASB Statements No. 14 and No. 34," and includes all component units that have a significant operational or financial relationship with the Village. Based upon the criteria set forth in the GASB Statement No. 61, there are no component units included in the reporting entity.

BASIS OF PRESENTATION

Government-Wide Statements

The Village's basic financial statements include both government-wide (reporting the Village as a whole) and fund financial statements (reporting the Village's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. The Village's highway and street maintenance and reconstruction, forestry, building code enforcement, public improvements, economic development, planning and zoning, and general administrative services are classified as governmental activities. The Village's water, sewer services are classified as business-type activities.

In the government-wide Statement of Net Position, both the governmental and business-type activities columns are: (a) presented on a consolidated basis by column, and (b) reported on a full accrual, economic resource basis, which recognizes all long-term assets/deferred outflows and receivables as well as long-term debt/deferred inflows and obligations. The Village's net position is reported in three parts: net investment in capital assets; restricted; and unrestricted. The Village first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the Village's functions and business-type activities (general government, public safety, public works, etc.). The functions are supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.).

VILLAGE OF ELWOOD, ILLINOIS

Notes to the Financial Statements

April 30, 2023

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

BASIS OF PRESENTATION - Continued

Government-Wide Statements - Continued

The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, which include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

The net costs (by function or business-type activity) are normally covered by general revenue (property tax, sales tax, intergovernmental revenues, interest income, etc.).

The Village does not allocate indirect costs. An administrative service fee is charged by the General Fund to the other operating funds that is eliminated like a reimbursement (reducing the revenue and expense in the General Fund) to recover the direct costs of General Fund services provided (finance, personnel, purchasing, legal, technology management, etc.).

This government-wide focus is more on the sustainability of the Village as an entity and the change in the Village's net position resulting from the current year's activities.

Fund Financial Statements

The financial transactions of the Village are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets/deferred outflows, liabilities/deferred inflows, fund balance, revenues and expenditures/expenses. Funds are organized into two major categories: governmental and proprietary. The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories.

GASB Statement No. 34 sets forth minimum criteria (percentage of the assets/deferred outflows, liabilities/deferred inflows, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds.

The Village electively added funds, as major funds, which either had debt outstanding or specific community focus. The nonmajor funds are combined in a column in the fund financial statements. A fund is considered major if it is the primary operating fund of the Village or meets the following criteria:

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The various funds are reported by generic classification within the financial statements. The following fund types are used by the Village:

VILLAGE OF ELWOOD, ILLINOIS

Notes to the Financial Statements

April 30, 2023

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

BASIS OF PRESENTATION - Continued

Fund Financial Statements - Continued

Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Village:

General Fund is the general operating fund of the Village. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund is a major fund.

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The Village maintains one nonmajor special revenue fund, the Motor Fuel Tax Fund.

Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest. The Village maintains two debt service funds. The Debt Service Fund, a major fund, is used to account for the accumulation of resources for, and the payment of, the principal and interest on the 2015 general obligation refunding bonds. The Deer Run TIF Fund, also a major fund, is used to account for revenues received from incremental property taxes and expenditures for debt service payments related to tax increment financing bonds.

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by business-type/proprietary funds). The Village maintains one capital projects funds. The Capital Construction Bond Fund, a major fund, is used to account for revenues received from general obligation bond proceeds and expenditures for road improvements and reconstruction.

Proprietary Funds

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary fund of the Village:

Enterprise Funds are required to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy designed to recover similar costs. The Village maintains one enterprise fund. The Water and Sewer Fund, a major fund, is used to account for revenues and expenses relative to the operation of the water and sewer utilities.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement Focus

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied.

On the government-wide Statement of Net Position and the Statement of Activities, both governmental and business-type activities are presented using the economic resources measurement focus as defined below. In the fund financial statements, the “current financial resources” measurement focus or the “economic resources” measurement focus is used as appropriate.

All governmental funds utilize a “current financial resources” measurement focus. Only current financial assets/deferred outflows and liabilities/deferred inflows are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

All proprietary funds utilize an “economic resources” measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets/deferred outflows and liabilities/deferred inflows (whether current or noncurrent) associated with their activities are reported. Proprietary net position is classified as net position.

Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability/deferred inflow is incurred or economic asset used. Revenues, expenses, gains, losses, assets/deferred outflows, and liabilities/deferred inflows resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when “measurable and available.” Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year-end. The Village recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70. A sixty-day availability period is used for revenue recognition for all other governmental fund revenues. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are recognized when due.

In applying the susceptible to accrual concept under the modified accrual basis, those revenues susceptible to accrual are property taxes, sales and use taxes, franchise taxes, licenses, interest revenue, and charges for services. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash.

All proprietary funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

VILLAGE OF ELWOOD, ILLINOIS

Notes to the Financial Statements

April 30, 2023

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING - Continued

Basis of Accounting - Continued

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Village's enterprise funds are charges to customers for sales and services. The Village also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY

Cash and Investments

Cash and cash equivalents on the Statement of Net Position are considered to be cash on hand, demand deposits, cash with fiscal agent. For the purpose of the proprietary funds "Statement of Cash Flows," cash and cash equivalents are considered to be cash on hand, demand deposits, cash with fiscal agent, and all highly liquid investments with an original maturity of three months or less.

Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. For investments, the Village categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. All of the Village's investments are in 2a7-like investment pools that are measured at the net asset value per share determined by the pool.

Interfund Receivables, Payables and Activity

Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Prepays

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepays in both the government-wide and fund financial statements. Prepays are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. The costs of governmental fund-type prepays are recorded as expenditures when consumed rather than when purchased.

VILLAGE OF ELWOOD, ILLINOIS

Notes to the Financial Statements

April 30, 2023

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY - Continued

Receivables

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivables balances for governmental activities include property taxes, sales and use taxes, franchise taxes, and grants. Business-type activities report utility charges as their major receivables.

Capital Assets

Capital assets purchased or acquired with an original cost of \$5,000 or more, depending on asset class, are reported at historical cost or estimated historical cost. Contributed assets are reported at acquisition value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. General capital assets are long-lived assets of the Village as a whole. Infrastructure such as streets, traffic signals and signs are capitalized. The valuation basis for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement costs.

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation bases for proprietary fund capital assets are the same as those used for the general capital assets. Donated capital assets are capitalized at acquisition value on the date donated.

Depreciation on all assets is computed and recorded using the straight-line method of depreciation over the following estimated useful lives:

Buildings and Improvements	10 - 40 Years
Machinery and Equipment	3 - 10 Years
Infrastructure	25 - 50 Years

Compensated Absences

The Village accrues accumulated unpaid vacation and associated employee-related costs when earned (or estimated to be earned) by the employee. In accordance with GASB Statement No. 16, no liability is recorded for nonvesting accumulation rights to receive sick pay benefits.

All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

VILLAGE OF ELWOOD, ILLINOIS

Notes to the Financial Statements

April 30, 2023

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY - Continued

Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses at the time of issuance.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Deferred Outflows/Inflows of Resources

Deferred outflow/inflow of resources represents a consumption/acquisition of net assets that applies to a future period and therefore will not be recognized as an outflow of resources (expense)/inflow of resources (revenue) until that future time.

Net Position

In the government-wide financial statements, equity is classified as net position and displayed in three components:

Net Investment in Capital Assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted - Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislations.

Unrestricted - All other net position balances that do not meet the definition of "restricted" or "net investment in capital assets."

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

BUDGETARY INFORMATION

Budgets are adopted on a basis consistent with generally accepted accounting principles. Prior to April 30, the Village Clerk submits to the Village Board a proposed operating budget for the fiscal year commencing May 1. The operating budget includes proposed expenditures and the means of financing them. Public hearings are conducted to obtain taxpayer comments. Prior to July 31, the budget is legally enacted through passage of an ordinance.

VILLAGE OF ELWOOD, ILLINOIS

Notes to the Financial Statements

April 30, 2023

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY - Continued

BUDGETARY INFORMATION - Continued

The Village's management is authorized to transfer budgeted amounts between departments within any fund; however, the Village Board must approve revisions that alter the total expenditures of any fund. Formal budgetary integration is employed at a management control device during the year for the General Fund. Budgeted amounts are as originally adopted by the Board of Trustees. Expenditures may not legally exceed budgeted appropriations at the fund level. During the year there were no supplementary appropriations.

EXCESS OF ACTUAL EXPENDITURES OVER BUDGET IN INDIVIDUAL FUNDS

The following funds had an excess of actual expenditures over budget as of the date of this report:

Fund	Excess
Debt Service	\$ 117,659
Deer Run TIF	19,040,373

DEFICIT FUND BALANCE

The following fund had a deficit fund balance for the fiscal year:

Fund	Deficit
Deer Run TIF	\$ 176,885,090

NOTE 3 - DETAIL NOTES ON ALL FUNDS

DEPOSITS AND INVESTMENTS

The Village maintains a cash and investment pool that is available for use by all funds except the pension trust funds. Each fund type's portion of this pool is displayed on the financial statements as "cash and investments." In addition, investments are separately held by several of the Village's funds. The deposits and investments of the pension trust funds are held separately from those of other funds.

Permitted Deposits and Investments - Statutes authorize the Village to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, and Illinois Funds.

Illinois Funds is an investment pool managed by the Illinois public Treasurer's Office which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company. Investments in Illinois Funds are valued at the share price, the price for which the investment could be sold.

VILLAGE OF ELWOOD, ILLINOIS

Notes to the Financial Statements

April 30, 2023

NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

DEPOSITS AND INVESTMENTS - Continued

Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk

Deposits and Investments. At year-end, the carrying amount of the Village's deposits for governmental and business-type activities totaled \$12,125,717 and the bank balances totaled \$12,064,045. Also, at year-end, the Village has \$10,553,508 invested in the Illinois Funds.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Village's investment policy limits interest rate risk by attempting to obtain the highest interest rate available while ensuring the maximum safety of principal and maintaining a portfolio that is sufficiently liquid to meet all operating costs which may be reasonably anticipated. The Village's investment in the Illinois Funds has an average maturity of less than one year.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Village does not have a formal written policy with regards to credit risk. At year-end, the Village's investment in the Illinois Funds is rated AAA by Fitch.

Custodial Credit Risk. In the case of deposits, this is the risk that in the event of a bank failure, the Village's deposits may not be returned to it. The Village's investment policy states that at all times funds on deposit (checking accounts, certificates of deposit, etc.) in excess of FDIC limits must be secured by some form of collateral, witnessed by a written agreement and held at an independent, third party institution in the name of the municipality. At year-end, the entire amount of the bank balance of deposits was covered by collateral, federal depository or equivalent insurance.

For an investment, this is the risk that, in the event of the failure of the counterparty, the Village will not be able to recover the value of its investments or collateral. The Village does not have a formal written policy with regards to custodial credit risk for investments. At year-end, the Village's investment in the Illinois Funds is not subject to custodial credit risk.

Concentration of Credit Risk. This is the risk of loss attributed to the magnitude of the Village's investment in a single issuer. The Village does not have a formal written policy with regards to concentration credit risk for investments. At year-end, the Village does not have any investments over 5 percent of the total cash and investment portfolio (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

LEASES RECEIVABLE

The Village is a lessor on the following lease at year end:

Lease	Term	Start Date	Payments	Interest Rate
Cell Tower Lease	60 months	April 1, 2020	\$2,240 to \$2,448 per month, including interest	6.25%

During the fiscal year, the Village has recognized \$24,852 of lease revenue.

PROPERTY TAXES

Property taxes for 2022 attach as an enforceable lien on January 1, on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by Will County and are payable in two installments, on or about June 1 and September 1. The County collects such taxes and remits them periodically.

INTERFUND ADVANCES

Interfund advances at year-end consisted of the following:

Receivable Fund	Payable Fund	Amount
Capital Construction Bond	Water and Sewer	\$ 4,050,178

Interfund advances are made in anticipation of receipts to cover cash shortages. These amounts will be paid over several years.

INTERFUND TRANSFERS

Interfund transfers for the year consisted of the following:

Transfer In	Transfer Out	Amount
Debt Service	Capital Construction Bond	\$ 367,023
Debt Service	General	578,495
		<u><u>945,518</u></u>

Transfers are used to move receipts restricted to debt service from the funds collecting the receipts to the Debt Service Fund as debt service payments become due.

Legal Debt Margin

Chapter 65, Section 5/8-5-1 of the Illinois Compiled Statutes provides that the General Assembly may limit the amount and require referenda for approval of debt payable from ad valorem property taxes in excess of one percent of assessed valuation. However, no such statute has been enacted as of this date. Therefore, as a home rule municipality, the Village of Elwood, Illinois has no debt limit.

VILLAGE OF ELWOOD, ILLINOIS

Notes to the Financial Statements

April 30, 2023

NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

LONG-TERM DEBT - Continued

Defeased Debt

On May 10, 2005, the Village issued \$17,325,000 par value General Obligation Refunding Bonds, Series 2023 to refund \$6,188,552 of the General Obligation Capital Appreciation Bonds, Series 2006. The Village defeased bonds by placing the proceeds of the new bonds in an irrevocable trust to provide for all future debt service payment of the old bonds. Since the requirements that normally satisfy defeasance have been met, the financial statements reflect satisfaction of the original liability through the irrevocable transfer to an escrow agent of an amount computed to be adequate to meet the future debt service requirements of the issue. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the government's basic financial statements. All bonds were called prior to year-end. Through this refunding, the Village reduced its total debt service by \$13,859,648 and obtained an economic gain of \$827,024.

FUND BALANCE CLASSIFICATIONS

In the governmental funds' financial statements, the Village considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The Village first utilizes committed, then assigned and then unassigned fund balance when an expenditure is incurred for purposes for which all three unrestricted fund balances are available.

Nonspendable Fund Balance. Consists of resources that cannot be spent because they are either: a) not in a spendable form; or b) legally or contractually required to be maintained intact.

Restricted Fund Balance. Consists of resources that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance. Consists of resources constrained (issuance of an ordinance) to specific purposes by the government itself, using its highest level of decision-making authority, the Board of Trustees; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.

Assigned Fund Balance. Consists of amounts that are constrained by the Board of Trustees' intent to be used for specific purposes but are neither restricted nor committed. Intent is expressed by a) the Board of Trustees' itself or b) a body or official to which the Board of Trustees has delegated the authority to assign amounts to be used for specific purposes. The Village's highest level of decision-making authority is the Board of Trustees, who is authorized to assign amounts to a specific purpose.

Unassigned Fund Balance. Consists of residual net resources of a fund that has not been restricted, committed, or assigned within the General Fund and deficit fund balances of other governmental funds.

Minimum Fund Balance Policy. The Village's policy manual states that the General Fund should maintain a minimum fund balance equal to 25% of budgeted operating expenditures.

Net Investment in Capital Assets		<u><u>13,436,719</u></u>

NOTE 4 - OTHER INFORMATION

RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; natural disasters; and injuries to the Village's employees. These risks are provided for through insurance from private insurance companies. The Village currently reports all its risk management activities in the General Fund and Water and Sewer Fund. There were no significant changes in insurance coverages from the prior year and settlements did not exceed insurance coverage in any of the past three fiscal years.

CONTINGENT LIABILITIES

Litigation

The Village is a defendant in other various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the Village's attorney, the resolution of these matters will not have a material adverse effect on the financial condition of the Village.

Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Village expects such amounts, if any, to be immaterial.

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN

Illinois Municipal Retirement Fund (IMRF)

The Village contributes to one defined benefit pension plan, the Illinois Municipal Retirement Fund (IMRF), a defined benefit agent multiple-employer public employee retirement system. IMRF issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole, but not by individual employer. That report may be obtained online at www.imrf.org. The benefits, benefit levels, employee contributions, and employer contributions are governed by Illinois Compiled Statutes (ILCS) and can only be amended by the Illinois General Assembly.

VILLAGE OF ELWOOD, ILLINOIS

Notes to the Financial Statements

NOTE 4 - OTHER INFORMATION - Continued

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN - Continued

Illinois Municipal Retirement Fund (IMRF) - Continued

Plan Descriptions

Plan Administration. All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. The plan is accounted for on the economic resources' measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

Benefits Provided. IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

IMRF provides two tiers of pension benefits. Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Plan Membership. As of December 31, 2022, the measurement date, the following employees were covered by the benefit terms:

Inactive Plan Members Currently Receiving Benefits	7
Inactive Plan Members Entitled to but not yet Receiving Benefits	12
Active Plan Members	<u>23</u>
 Total	 <u>42</u>

VILLAGE OF ELWOOD, ILLINOIS

NOTE 4 - OTHER INFORMATION - Continued

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN - Continued

Illinois Municipal Retirement Fund (IMRF) - Continued

Plan Descriptions - Continued

Contributions. As set by statute, the Village's Regular Plan Members are required to contribute 4.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. For the year-ended April 30, 2023, the Village's contribution was 5.45% of covered payroll.

Net Pension Liability/(Asset). The Village's net pension liability/(asset) was measured as of December 31, 2022. The total pension liability used to calculate the net pension liability/(asset) was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation performed, as of December 31, 2022, using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Fair Value
Actuarial Assumptions	
Interest Rate	7.25%
Salary Increases	2.85% to 13.75%
Cost of Living Adjustments	2.75%
Inflation	2.25%

For nondisabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

VILLAGE OF ELWOOD, ILLINOIS

Notes to the Financial Statements

April 30, 2023

NOTE 4 - OTHER INFORMATION - Continued

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN - Continued

Illinois Municipal Retirement Fund (IMRF) - Continued

Plan Descriptions - Continued

Actuarial Assumptions - Continued.

Asset Class	Target	Long-Term Expected Real Rate of Return
Fixed Income	25.50%	4.90%
Domestic Equities	35.50%	6.50%
International Equities	18.00%	7.60%
Real Estate	10.50%	6.20%
Blended	9.50%	6.25% - 9.90%
Cash and Cash Equivalents	1.00%	4.00%

Discount Rate

The discount rate used to measure the total pension liability was 7.25%, the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that Village contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all project future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability/(asset) to changes in the discount rate. The table below presents the net pension liability/(asset) of the Village calculated using the discount rate as well as what the Village's net pension liability/(asset) would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Net Pension Liability/(Asset)	\$ 696,830	105,016	(346,730)

NOTE 4 - OTHER INFORMATION - Continued

OTHER POST-EMPLOYMENT BENEFITS

The Village has evaluated its potential other post-employment benefits liability. Former employees who choose to retain their rights to health insurance through the Village are required to pay 100% of the current premium. However, there is minimal participation. As the Village provides no explicit benefit, and there is minimal participation, there is no material implicit subsidy to calculate in accordance with GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Therefore, the Village has not recorded a liability as of April 30, 2023.

SUBSEQUENT EVENT

On June 13, 2023, the Village terminated the Deer Run Industrial Park Tax Increment Finance District (the Deer Run TIF). After the payment of all bills and obligations, any money in the TIF Fund will be declared as surplus and returned to the Taxing Districts through the Will County Treasurer.

OTHER SUPPLEMENTARY INFORMATION

Other supplementary information includes financial statements and schedules not required by the GASB, nor a part of the basic financial statements, but are presented for purposes of additional analysis.

Such schedules include:

Budgetary Comparison Schedules - Major Governmental Funds

Budgetary Comparison Schedules - Nonmajor Governmental Funds

Budgetary Comparison Schedules - Enterprise Fund

Consolidated Year-End Financial Report

INDIVIDUAL FUND SCHEDULES

GENERAL FUND

The General Fund is used to account for all financial resources except those required to be accounted for in another fund.

SPECIAL REVENUE FUND

The Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than fiduciary funds or capital projects funds) that are legally restricted to expenditure for specified purposes.

Motor Fuel Tax Fund

The Motor Fuel Tax Fund is used to account for the revenues received from the Village's allocation of state gasoline taxes and the expenditures for street construction and maintenance, which must be authorized by the Illinois Department of Transportation.

DEBT SERVICE FUNDS

The Debt Service Funds are created to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Debt Service Fund

The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, the principal and interest on the 2015 general obligation bonds.

Deer Run Tax Increment Financing (TIF) Fund

The Deer Run Tax Increment Financing Fund is used to account for revenues received from incremental property taxes and expenditures for debt service payments related to tax increment financing bonds.

CAPITAL PROJECTS FUND

The Capital Projects Funds are created to account for all resources used for the acquisition of capital facilities by a governmental unit except those financed by Proprietary Funds.

Capital Construction Bond Fund

The Capital Construction Bond Fund is used to account for revenues received from general obligation bond proceeds and expenditures for road improvements and reconstruction.

INDIVIDUAL FUND SCHEDULES

PROPRIETARY FUND

ENTERPRISE FUND

The Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where it has been decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purpose.

Water and Sewer Fund

The Water and Sewer Fund is used to account for revenues and expenses relative to the operation of the water and sewer utilities.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENTAL AUDITING STANDARDS

October 17, 2023

The Honorable Village President
Board of Trustees
Village of Elwood, Illinois

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Elwood, Illinois, as of and for the year ended April 30, 2023, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements, and have issued our report thereon dated October 17, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Village's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. According, we do not express an opinion on the effectiveness of the Village's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Village's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Village's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Village of Elwood, Illinois
October 17, 2023

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Village's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Village's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

STATISTICAL SECTION (Unaudited)

This part of the annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Village's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the Village's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the Village's most significant local revenue sources.

Debt Capacity

These schedules present information to help the reader assess the affordability of the Village's current levels of outstanding debt and the government's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the Village's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the Village's financial report relates to the services the Village provides and the activities it performs.

VILLAGE OF ELWOOD, ILLINOIS

Schedule of Legal Debt Margin

April 30, 2023 (Unaudited)

Chapter 65, Section 5/8-5-1 of the Illinois Compiled Statutes provides that the General Assembly may limit the amount and require referenda for approval of debt payable from ad valorem property taxes in excess of one percent of assessed valuation. However, no such statute has been enacted as of this date. Therefore, as a home rule municipality, the Village of Elwood, Illinois has no debt limit.
